SUMMARY

CATINCA establishes a network of 8 partners from Central Asia/Southern Caucasus which is affiliated to the burden-EU COST Action.

The project supports the implementation of burden of disease methodology as an important tool for health information and policy development.

Funding: German Ministry of Education and Research (BMBF)

PROJECT

Training & Workshops

Participation in COST network activities

Scientific missions

Support of PhD & Master thesis

8 partners – Armenia – Azerbaijan – Georgia – Kazakhstan – Kyrgyzstan – Mongolia – Tajikistan - Uzbekistan - 1 network

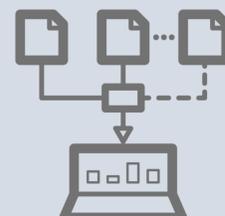

DATA

Overview data

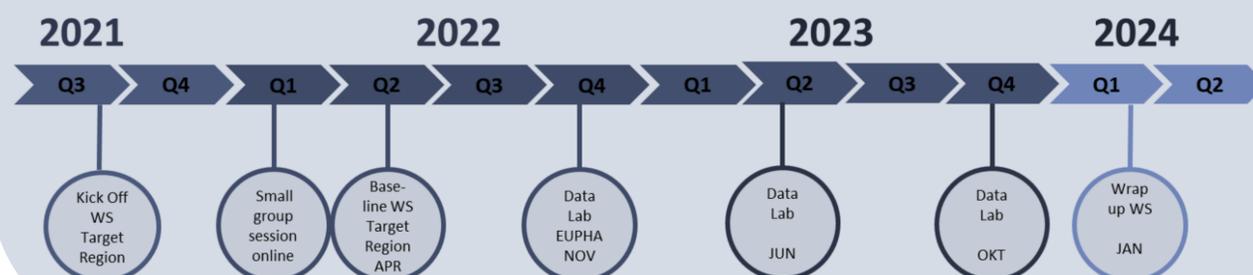

Needs assessment

Use of fragmented data for summary measures

TIMELINE

GOALS

- ✓ Enhance the use of data
- ✓ Calculate summary measures like BoD
- ✓ Pilot studies f.e. cancer registry?
- ➔ Burden of cancer

LONG-TERM EFFECTS

- ✓ Network
- ✓ Capacity building
- ✓ Integration into health reporting
- ✓ Knowledge transfer to policy
